ITALY WILL NOT CONCLUDE SEPARATE PEACE

MONASTIR NOT YET IN ENEMY'S HANDS

Germans, Pressing to the West, Take Two More Towns in Montenegro

(By Associated Press.)
LONDON, Dec. 2.—The Bulgarians have not occupied Monastir yet. They are evidently awaiting reinforcements. Reports differ. London said that Serbian reinforcements, approaching from the north, may retain the town. Greece has reported that a commission has been appointed to arrange the terms of surrender. A small Serbian force is here now. The Germans, pressing west, took Plevlje and Jabuka, two Montenegrin towns.

Further participation by Italy is expected. The Italian foreign minister, Sonnino, in addressing parliament, intimated that they will soon send forces to Albania to help the Serbians. Italy has agreed not to conclude separate peace. Lieutenant General Caldora, chief of staff, intends to go to France to confer with General French. The British chiefs forced him to postpone his journey. Peking has reported that China never received a proposal to join the belligerents. It never considered abandoning neutrality. Vienna said that no special motive was behind the Kaiser's visit.

British casualties from the beginning of the war until November ninth, were 510,230. The 379,858 killed on French battlefields was the heaviest loss.

A Wilson liner, carrying freight, is stranded on Goodwin sands.

EAGLES' MINSTRELS PLEASE AUDIENCE

LARGE AUDIENCE AT BUTLER LAST EVENING ENJOYS A GOOD PERFORMANCE

One of the best minstrel shows ever witnessed in southern Nevada, possibly the very best, was put on at the Butler theater last evening by the troupe of Esmeralda aerie, No. 946, Fraternal Order of Eagles. It was not a case of "trying it on the dog," for the entertainment had previously been given twice in Goldfield and each time to crowded houses, while the comments made were all in the way of highest praise.

The company consists of about twenty people, all stars. They gave dances, songs, instrumental music and amusing dialogue. Mrs. J. G. Thompson's were unquestionably the hits of the evening, but Louie Polin, who forgot the words and never knew the music of his selection was recalled time and again and was finally presented with a beautiful bouquet of onion tops. Space does not permit individual mention of all who participated, but they certainly made good, individually and collectively.

The proceeds from the entertainment will be used to entertain the grand aerie of Eagles, which will meet in Goldfield next spring.

MAY WITHDRAW GUARDS

(By Associated Press.)
PEKING, Dec. 2.—Chinese newspapers are carrying on a campaign for the withdrawal of the legation guards which foreign powers maintain in Peking. At present only the Americans, the Japanese and the Dutch have a full guard at the legation compounds. As a result of the war the English, the Russian, the French, the Italian, the German and the Austrian legations have reduced their guard to small squads, but even the few soldiers left in Peking by these belligerents have managed to engage in some clashes which the Chinese use as an argument against the employment of troops by foreign legations.

OSAKA, Japan, Dec. 2.—As a means of encouraging sanitation and the prevention of disease the city health department has engaged a well known actor to produce a one-act comedy whose story and plot are designed to instill a fear of epidemics.

The authorities will buy tickets to the play and they will be distributed by policemen among the hotels and restaurants and other places where there is special need of sanitary equipment.

PANDEMONIUM REIGNS ON A FERRY BOAT

(By Associated Press.)
SAN FRANCISCO, Cal., Dec. 2.—An accident occurred at midnight last night which was theatrical in its details and for a time threatened to become a replica of the Eastland disaster.

The ferryboat Oakland, which was returning from San Francisco, was loaded to capacity with theater goers and people who had been attending the exposition, when an error in judgment caused the boat to collide with the end of the Alameda pier, instead of finding safe harbor.

When the collision occurred there were several hundred people standing at the bow, in haste to disembark. They were thrown from the deck and three women and one man were injured. It is understood that the accident was caused by a misinterpretation of signals. Government officials are investigating.

BUDDHIST SECT TO BECOME MODERNIZED

(By Associated Press.)
TOKIO, Dec. 2.—After an eleven days' conference at Kishu the Buddhist sect known as Shingon has adopted two steps which, according to its leaders, bring the sect into paths of modernism. The first is to ratify the extension to women of the right of pilgrimage to the famous Koyasan monastery which stands in the mountainous region in Kishu, a right which has been restricted to the male sex from times immemorial. The second step was that of extending recognition to the marriage of its priests.

The Shingon sect has stood for celibacy since it was founded in the ninth century. The recognition of marriage took the form of a resolution declaring that the son of a rector of the monastery would be recognized as the first candidate for the rectorship upon the death of the incumbent.

INDIANS RAID AMERICAN HOMES IN MEXICO

(By Associated Press.)
TOPOBLAMPO, Mexico, Dec. 2.—Admiral Winslow, on arriving on San Diego, demanded that the Carranzista general, Monoz, protect the Americans in Sinaloa. Monoz promised to comply. Winslow found that Indians had raided American homes at Low Mochis and had confiscated thirteen hundred mules and looted and burned the consulate and home of the consular agent. Many Carranzistas were arrested.

FOUR HUNDRED CANNON ORDERED BY ENGLAND

JAPANESE ALSO MANUFACTURING A LARGE NUMBER OF SHELLS FOR RUSSIA

(By Associated Press.)
TOKIO, Dec. 2.—The British government has placed orders with the Kure naval arsenal and the Muroran Steel works for the manufacture of 400 3-inch guns. The guns to be made are the 1908 type invented by the Japanese navy. Three hundred guns will be made at the Kure arsenal and one hundred at Muroran Steel works. All accessories will be manufactured by the Kobe steel works. A formal contract will be signed in a few days. It is understood that the guns are for the British navy.

The Kawasaki Dockyard company of Kobe has contracted for the manufacture of a large quantity of shells for the Russian army. The company has started the work of erecting a big melting furnace at its branch factory in Hyogo near Kobe.

An order for ten thousand tons of copper and five thousand tons of zinc has been recently placed with the Mitsui Bussan Kaisha by the Russian government.

It is understood that the company has accepted the order only for five thousand tons of copper. The annual yield of copper in Japan amounts to sixty thousand tons, but it appears that the supply for several months ahead has been fully booked. On the other hand the turnout of zinc is estimated at 1,600 tons. In ordinary times it would not be difficult to enter into a contract for the supply of five thousand tons, but leading refineries have orders placed up to April next. Besides, the military arsenals are also taking an enormous supply of the metal. The Russian zinc order will therefore not be met in this country.

MANCHURIA IN THE PROHIBITION RANKS

(By Associated Press.)
HARBIN, Manchuria, Dec. 2.—Russia's banishment of liquor has driven vodka from the trains and stations of the Trans-Siberian railway and in consequence has particularly put much of Manchuria into the prohibition ranks. Being the chief artery of business, the Russian railway is the center of most activities in central and northern Manchuria. In many of the smaller places the railway station cafe and bar are the only social center. Before the war vodka was sold at all stations and in the dining cars. Now the patrons of the railway refreshment stands must confine their drinking to non-alcoholic beverages.

PRICELESS RELICS IN RUINS KOREAN TOMBS

(By Associated Press.)
SEOUL, Korea, Dec. 2.—Priceless relics of the Korean era fixed at 1,300 years ago have been found during excavations at the ruins of the old Shillagi dynasty tomb of Korea at Kyongju. Workmen engaged in the restoration of a nine-story tower discovered an old stone coffin containing a jeweled ornament, a gold bell, a silver bell, a gold vase, a stone sword, some exquisite comma-shaped jewels and other relics.

In this connection it has been noted that one of the three sacred treasures of Japan which symbolize the sovereignty of the Emperor is a comma-shaped jeweled necklace. This jewel is borne to Kioto for use during the coronation ceremonies.

INTERESTING CASE COMES TO CONCLUSION

CASE OF HARRISON HILL VERSUS C. J. KANROHAT IS SUBMITTED

The case of Harrison Hill versus C. J. Kanrohat, which had been on trial for several evenings in the district court before Judge Averil, was completed at the morning session of the district court today. It was submitted to the court, who took it under advisement.

This is an action in which the defendant sold to the plaintiff 20,000 shares of stock in the Jefferson Gold and Silver Mining company. There was some sort of an understanding that if the purchasers were not satisfied with their bargain, the stock would be bought back in a year at \$1 a share, but the agreement to that effect was not presented in court. Mr. Kanrohat has been prospecting in the Jefferson canyon district, since 1873. C. L. Richards represented the defendant and W. R. Gibson, of Round Mountain, the plaintiff.
